

Reflection Questions

BLP: Students reflect not just on what they have learnt but how they have learnt it

How it works

Display the following questions during mini-plenaries or get students to pull them out of a box and question one another.

What part of the learning would you find hardest to explain to someone else?

How could you use this learning in another subject or outside school?

How will I remember this learning?

What are the steps or stages of explaining this concept/problem?

If you did this again how would you do it differently?

How have I solved problems like this before?
