

Dear Parents and Carers of Year 11,

Subject: Available Intervention and Revision

As promised, please find attached the available intervention and revision sessions for Year 11 between now and the end of this term to prepare students for the Trial Exams. There is no expectation for teachers to run these sessions, and they will vary throughout the academic year. Please speak to your child, and ensure that they are seizing every opportunity to prepare for these examinations.

Regarding equipment, we are also encouraging Year 11 students to now come into school with their exam pencil cases. Please ensure that your child has a clear pencil case, clear water bottle without label, black biros, pencils, a highlighter, full maths set and a scientific calculator.

With this being a shorter school week for students, I hope Year 11 use this opportunity of the two INSET days to revise and be productive in their preparations for the 1st December onwards. I have attached a 'Revision Menu' provided by Dr Van Der Spoel to help support your child's revision.

Finally, we know that this can be a stressful time for students, so please liaise with your child's tutorial teacher, or the Year 11 Pastoral Team if we can support in any way. I have also attached a document to provide advice on how to support your child the night before an exam and during this challenging period.

Best wishes,

Ms Hockley
