

27th June 2024

Dear parents/carers

Re: Field End Junior School's Ofsted section 5 inspection

As many Trust-wide parents/carer may be aware, Field End Junior School had its section 5 Ofsted inspection on Tuesday 23rd and Wednesday 24th April 2024 with three inspectors. The report ([click here](#)) was recently published and therefore we are writing to share how delighted we were with the outcome of the inspection.

The inspectors' judgement is that the school is good for its overall effectiveness as well for all the key judgement areas. The report outlines the reasons for the designation with descriptions such as: *'Pupils are motivated to learn in class and their conduct is orderly and calm around the school.'* and *'The school provides an ambitious curriculum, which is carefully sequenced to build on pupils' previous knowledge and deepen their understanding over time.'*

We were also pleased that the Trust's work through our collective endeavour was acknowledged, noting: *'Leaders and trustees are determined that all pupils succeed and enjoy their time at school.'*

We are confident that the school's future is secure with our collective focus on high standards and inclusive education, which is supported by the Trust's commitment to sharing best practice and enabling collaboration across our schools.

Yours sincerely
