

VYNNERS SCHOOL

SUBJECT TEACHER - PHYSICS

Job Description

Core Purpose: To teach Physics to KS3 and KS4 and up to KS5 for suitable candidates.

Specific Responsibilities:

In addition to the 'Conditions of employment of teachers other than the Headteacher' as laid down in the current School Teachers Pay and Conditions document, the successful candidate should be:

- Committed to supporting the department's drive towards establishing high quality teaching and learning materials and delivering high quality lessons.
- Willing to engage in current and planned initiatives to create well-differentiated in-house teaching materials to supplement on-going revision of schemes of work, including rich tasks and functional skills (KS3 and 4).
- Keen to develop extra-curricular scientific activity, such as regular Science club for a range of abilities and ages.

Outcomes: To enable students to achieve their maximum potential.

Person Specification

Essential:

The teacher appointed will:

- Hold Qualified Teacher Status with a good science / physics or science related First Degree.
- Be dedicated to achieving high standards of academic work and discipline in the classroom.
- Foster excellent and appropriate mathematical practice, striving for absolute rigour in terms of mathematical expectations and performance.
- Teach science in a way which promotes enrichment and extends the students' quest for understanding beyond just the perfunctory remit of examination specifications.
- Develop excellent relationships with students and staff.
- Have excellent use of ICT in teaching and learning.
- Have excellent organisational skills.
- Be a good team player.
- Be committed to the educational and pastoral development of all students.
