

READING IN PSHEE

Disciplinary Literacy is defined as the confluence of content knowledge, experiences, and skills merged with the ability to read, write, listen, speak, think critically and perform in a way that is meaningful within the context of a given field.

CULTURAL CAPITAL

Use reading as a way to make connections and understand real world issues. This is a key element of reading in PSHEE as it allows students to better learn and understand concepts and lessons through real life examples in the wider world. This also allows students to make connections to the British Values through reading.
